

HiFlux Filtration A/S

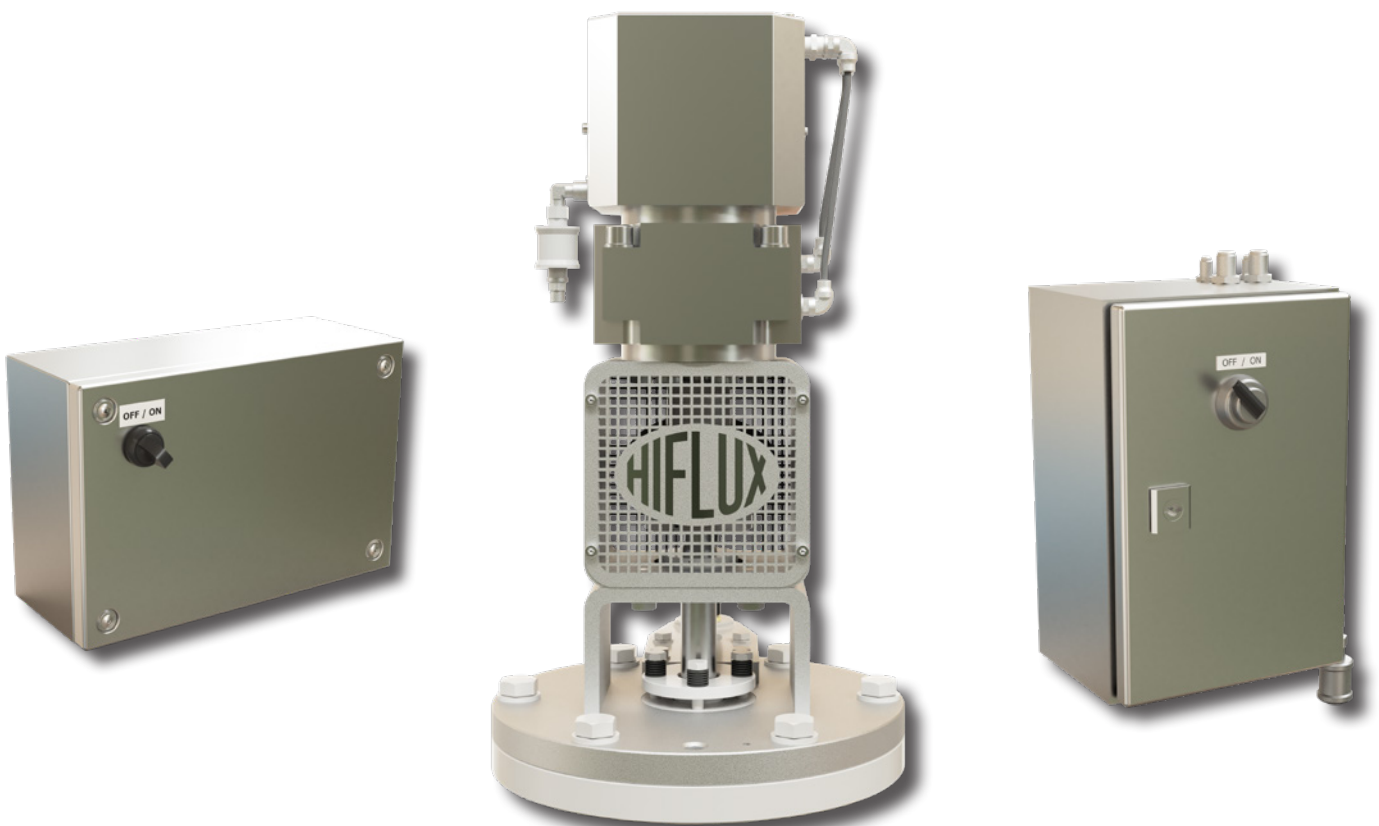

# Professional CONTROLLERS Auto-line

## On/ off controllers for Auto-line

Electric - Rotating version

Pneumatic - Linear version

Pneumatic - Rotating version

# Auto-line - Controllers

3 controller versions for the Auto-line self-cleaning filters, which are compact and simple on/off controllers.

These controllers provide high reliability and secure operation. They are designed with a focus on safety during filter operation with regards to the selected components for the controllers. The design is simple to ensure easy maintenance.

The sturdy construction of the cabinet is well suited for placement in industrial environments.

The cabinet is supplied with lockable covers.

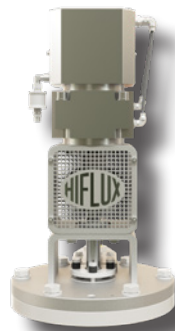

- **Customized for Auto-line filters**
- **Simple on/ off controller**
- **Easy maintenance**
- **High reliability**
