

# PROFESSIONAL FILTRATION MOLASSES

HiFlux Auto-line® filters are specially designed for automatic filtration of molasses

*World leading company producing customized hygienic filter solutions. Increased food security, productivity and better profitability.*

HiFlux Filtration A/S

### About the Auto-line® Automatic filter:

Installed at several of Europe's largest manufacturers of molasses .

#### Before installation:

Cleaning manual filters regularly, high maintenance costs, downtime in production.

#### After installation:

Automatic process, increased productivity, minimal maintenance, no production stops.

### Facts for the Auto-line® Automatic filter

Complies to the regulations EC1935/2004 and EU 10/2011, as well as the FDA standards. CIP friendly design with respect to the hygienic design recommendations by the European Hygienic Equipment Design Group (EHEDG).

HiFlux Auto-line® Filter has been designed as a compact, self-cleaning filter. The sturdy construction of the filter makes it well suited for applications in which operational reliability and dependability are essential.

Accurate filtration down to 50 micrometers [ $\mu\text{m}$ ].

### FEATURES

- **Removes unwanted particles**  
High operational reliability.
- **Ensures the quality**  
Increased product quality.
- **Continuous flow process**  
Self-cleaning application.
- **Eliminates downtime**  
Optimizing earnings.
- **High viscosity**

### Did you know?

Our customer, Den Ouden PHC used to filter the end product in filter bags of 200 micron. This was time consuming and dirty work, that has led to many production delays. "Since we installed the Auto-line filter the production time was decreased with 15% and the output was increased with 20% and we never received complaints about blocked filters of Agricultural spraying equipment anymore. Furthermore, the Auto-line filter solution requires low maintenance, and the provided service and expertise from HiFlux was excellent." According to Pius Floris from Den Ouden PHC in the Netherlands.
